TWO-DAY WORKSHOP OUTLINE

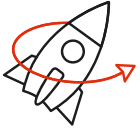

ARTICULATE STORYLINE FUNDAMENTALS

WORKSHOP OVERVIEW

Back in the day, e-learning courses were made by “the man behind the curtain.” Secret programmers with special, secret skills worked behind closed doors to build courses designed by us mere mortals.

Today, tools like Articulate Storyline prove that you can create a course that is visually rich, highly interactive, and customized to meet your instructional needs. You can do all of this without having to write a single line of code.

WHAT WILL YOU LEARN?

During this two-day, hands-on Articulate Storyline Workshop, you’ll learn everything you need to start creating interactive e-learning content. One of our e-learning experts will guide you through building a course in Articulate Storyline 1, 2, 3, or 360 from beginning to end.

YOU WILL LEARN HOW TO:

- Create new projects.
- Work with scenes and slides.
- Add text, graphics, video, and audio.
- Edit object properties.
- Add entrance/exit animations and motion paths.
- Work with states and layers.
- Create triggers and variables.
- Create quiz questions.
- Create screen recordings and simulations.
- Customize the player.
- Publish a course.

WHO SHOULD ATTEND?

This workshop has been designed for anyone who is just getting started with Articulate Storyline 1, 2, 3, or 360. Although we don’t require any prerequisites for our Articulate Storyline Workshop, it helps to have a working knowledge of Microsoft PowerPoint.

WHAT EQUIPMENT & SOFTWARE DO YOU NEED?

To attend this workshop, you will need a computer (running the Windows operating system) with an Internet connection, a mouse, and Articulate Storyline 1, 2, 3, or 360 installed.
